Item 4 SNIE on Emplacement of Weapons of Mass Destruction on the Seabed  
BNE draft coordinated with USIB Representatives for USIB approval;  
Sponsor - Mr. Abbot Smith

This SNIE, which was requested by Secretary Rusk, estimates the capabilities of U.S. intelligence to monitor by national means a ban on the emplacement of weapons of mass destruction on the seabed and the likelihood of Soviet or third country deployment of such weapons during the next 10 years or so. No serious substantive disagreements were encountered in the coordination of this paper and BNE is not aware at this time of any problems which may be raised at the Board meeting; however, work on this draft was not completed until late yesterday (Monday).
